

Based on the Greg Laurie book, "Steve McQueen: Salvation of an American Icon," the movie traces the life of Steve McQueen and his conversion to Christ. Although he was an icon of a past generation, McQueen's story is relevant today - even for millennials. He was cool, he was unconventional, rich and famous - and he needed Jesus. At the end of his life he found true peace and ultimate meaning by surrendering his life to Jesus Christ. He was buried holding the bible Billy Graham had given him. His story is gripping, entertaining and transforming. The impact of the movie has been astounding, and it could make a difference in the lives of anyone who sees it. A great film to bring a searching or unsaved friend, neighbor or loved one - no matter what their age.

Made by the Erwin Brothers (*Woodlawn, I Can Only Imagine, October Baby*) and Ben Smallbone (*Priceless*). At the end of the movie a salvation message is presented by Greg Laurie.
